(Associated Press Telegram)
+ Columbus, Sept. 23.—Police of
+ this city were awaiting word today
+ for New Orleans where a man be-
+ lieved to be Robert C. Strang, a con-
+ tractor, wanted here on a charge of
+ obtaining by false pretenses an \$8,
+ 700 bond from the Illinois Surety
+ company, through its local agent, is
+ under arrest. Strang, the police
+ said, is a professional diver who
+ posed as a contractor from Covin-
+ gton, Ky., and obtained the bond to
+ insure his carrying out a contract to
+ build a Moose Lodge temple in Cin-
+ cinnati. On a sworn statement, that
+ Harold Sweitzer of Cincinnati, that
+ Strang was drowned in the Ohio
+ river when a boat in which the two
+ men were riding capsized the bond
+ was paid to Mrs. Bessie Strang, be-
+ lieved to be Strang's wife. It is al-
+ leged that she also collected several
+ thousand dollars in life insurance.
+ The woman has disappeared and the
+ police have been asked to locate her.
+ Efforts also are being made to find
+ Sweitzer who, it was said was as-
+ sociated with Strang in the contract-
+ ing business.

(Associated Press Telegram)
+ Cincinnati, Sept. 23.—A warrant
+ issued in municipal court here
+ yesterday charging Mrs. Bessie
+ Strang, supposed to be the wife of
+ Robert C. Strang, with obtaining money
+ under false pretenses. It is alleged
+ in this warrant that Mrs. Strang
+ knew that her husband was not dead
+ when she swore to an affidavit that
+ he had been drowned in the Ohio
+ river on May 22, last.

New Orleans, Sept. 23.—A man
+ arrested here today under the name
+ of Tom Bailey is declared by the
+ local police to be Robert C. Strang,
+ wanted in Columbus, and Cincinnati,
+ Ohio, for life insurance frauds
+ amounting to more than \$10,000.
+ Strang's wife is said to have collect-
+ ed it on representation that Strang
+ had been drowned in the Ohio river
+ last May.

**This Salient is at Present
Barring the Road to Pet-
rograd—Domestic Situa-
tion in Russia is Now

testing Against Prorogue
of the Duma Suspended.**

(Associated Press Telegram)
+ London, Sept. 23.—The strongly
+ fortified Russian city of Dvinsk, on
+ the Dvina, 110 miles southeast of
+ Riga, has become the new German
+ objective now that the Russian
+ armies apparently have escaped from
+ the Vilna net. The German forces
+ east and southeast of Lida are now
+ making more rapid progress, but
+ their increased speed at this time is
+ expected to gain them little in view
+ of the fact that the safe retreat of
+ the greater part of the Russian forces
+ now seems to be assured.

The chief success of the Germans
+ in the last day or two has been along
+ the Dvina front, which bars the road
+ to Petrograd. Southwest of Dvinsk,
+ the invaders captured Russian trench-
+ es on a front of nearly two miles,
+ taking 2,000 prisoners and eight ma-
+ chine guns. Further down the river
+ near Friedrictstadt, the Russians
+ have gained a minor success.
+ For the time being, the domestic
+ situation in Russia is quietest. The
+ strike in protest at the prorogation
+ of the Duma, has been suspended,
+ but may be revived if the govern-
+ ment persists in its opposition to the
+ movement in favor of reassembling
+ parliament and permitting the forma-
+ tion of a new cabinet.

AGREEMENT BY SATURDAY

**Is Hoped for, the Principal
Features of the Negotia-
tions Having Been Dis-
posed of—It May Be That
the Loan May Bear Higher
Rate of Interest Than
First Proposed.**

(Associated Press Telegram)
+ New York, Sept. 23.—The six mem-
+ bers of the joint Anglo-French finan-
+ cial commission continued today their
+ deliberations over the proposed big
+ credit loan to Great Britain and
+ France in the hope of concluding this
+ week their conversations with Ameri-
+ can financiers and of being able to
+ announce a not later than Saturday
+ that the loan would be floated.
+ The celerity with which negotia-
+ tions have proceeded toward this goal
+ apparently had been checked yester-
+ day. With the commission meeting
+ in continuous session from 10 a. m.
+ till early today, and with their Ameri-
+ can associates declining to comment
+ on the situation, Wall Street felt to
+ theorizing as to whether there had
+ been a hitch in negotiations, and if
+ so upon what points.

For the first time since the negoti-
+ ations began, certain American bank-
+ ers were inclined to doubt whether
+ the loan would exceed \$500,000,000.
+ These bankers failed also to share the
+ commission's reported opinion that
+ the big issue would be eagerly taken
+ by American investors at a five per
+ cent interest rate. In some quarters
+ there was a growing demand that the
+ rate be made five and one-half per
+ cent.

In disposing of rumors current in
+ Wall Street that there had been
+ friction between financiers and mem-
+ bers of the Anglo-French financial
+ commission, the commission issued
+ an official statement today denying
+ that such was the case.

Under the caption "Reported fric-
+ tion between the commission and
+ American bankers," the statement
+ reads:

"The commission wishes to deny
+ emphatically that there has been
+ friction. The report that there had
+ been is not so."

Meetings between American bank-
+ ers and the commission continued to-
+ day.

HENRY FORD TO MAKE A TRIP IN A SUBMARINE

(Associated Press Telegram)
+ New York, Sept. 23.—Henry Ford
+ of Detroit, was in New York today,
+ to take a trip in one of the subma-
+ rines at the New York navy yard in
+ furtherance of his promised attempt
+ to perfect a gasoline motor for use
+ in such craft. Mr. Ford said that he
+ did not intend to be submerged in a
+ submarine but intended to look them
+ over.

Navy submarines now are propelled
+ by oil engines when on the sur-
+ face and by electric batteries when
+ submerged. Mr. Ford was insistent
+ today that an efficient undersea
+ craft could be built at one-sixteenth
+ the cost of the present vessels. When
+ he was asked how many of them he
+ would suggest building, he replied
+ "none."

Mr. Ford spent two hours at the
+ navy yard today inspecting subma-
+ rines and the latest forms of marine
+ machinery. At the conclusion of his
+ trip the manufacturer announced he
+ did not expect to build any subma-
+ rines in the near future and that he
+ was still a strong peace advocate.
+ "I was very much interested in all
+ I saw," said Mr. Ford. "I spent over
+ half an hour in one submarine and
+ learned a great deal for it was my
+ first experience in one."

The Ford party was taken into
+ the submarine K-5. Every detail of
+ the craft was explained to the man-
+ ufacturer, but it was not submerged.
+ He also inspected two other subma-
+ rines.

(Associated Press Telegram)
+ New York, Sept. 23.—Five official
+ investigations of the cave-in of the
+ new subway construction in Seventh
+ avenue, in which seven persons were
+ killed and about 85 injured, were in
+ progress today. The accident which
+ took place yesterday, still was attrib-
+ uted to a collapse of the wooden
+ street surface as the result of a dy-
+ namite blast. The inquiries were
+ conducted by the public service com-
+ mission, district attorney and other
+ city and state officials. Mayor Mitch-
+ ell declared that all the subway con-
+ struction now in progress throughout
+ the city will be inspected to learn if
+ there is danger of a similar occur-
+ rence elsewhere.

At least five miles of Manhattan's
+ thoroughfares including some of the
+ avenues, carrying heavy traffic are
+ undermined by subway construction.
+ The wooden surface of the road-
+ ways traversed by street cars, auto-
+ mobiles and heavy wagons is sup-
+ ported by a honeycomb of wooden
+ girders said to be similar to that
+ which collapsed in Seventh avenue.
+ Four of the subway workmen were
+ still missing today and it was feared
+ that their bodies were buried under
+ the debris.

STATE AUDITOR MAY CONTRARY ATTY GENERAL

(Associated Press Telegram)
+ Columbus, Sept. 23.—Attorney
+ General Turner, in an opinion made
+ public today, holds that the payment
+ of grocery, music and entertainment
+ bills incurred by the Ohio commis-
+ sion to the Panama-Pacific exposi-
+ tion in maintaining Ohio's exposi-
+ tion funds, is not misappropriation
+ of funds.

Some time ago State Auditor Don-
+ ahey announced he would refuse to
+ honor vouchers for certain "grocery"
+ bills, on the ground that the commis-
+ sion had been extravagant in pur-
+ chasing supplies. The bills contain-
+ ed items for whiskey, brandy, candy
+ and flowers.

The auditor today indicated that
+ in spite of Mr. Turner's ruling he
+ would not honor the vouchers. Some
+ officials said Newton Miller, direc-
+ ting commissioner of the commission,
+ who asked for the ruling would
+ probably have to bring suit to com-
+ pel the auditor to pay the bills.

State Auditor Donahey may lead a
+ fight against granting the applica-
+ tion of the state board of agriculture
+ for \$20,000 to pay 1915 state fair
+ debts in excess of the appropriation,
+ before the state emergency board at
+ its next meeting, according to a re-
+ port circulated at the state house to-
+ day. Mr. Donahey refused to com-
+ ment on the report.

Those who oppose the agriculture
+ board expenditures hold that its ac-
+ tion in incurring liabilities over the
+ appropriation made by the legisla-
+ ture, violates the law and that board
+ members can be held personally lia-
+ ble. Friends of the board of agri-
+ culture point out that the precise im-
+ portance of the state fair cannot be
+ determined in advance and that con-
+ sequently such an excess of expendi-
+ tures is unavoidable.

BIG BOND ISSUE IS AUTHORIZED BY COMMISSION

(Associated Press Telegram)
+ Columbus, Sept. 23.—The state pub-
+ lic utilities commission today author-
+ ized the Lorain Electric company to
+ issue \$750,000 common stock and
+ \$750,000 five per cent bonds to be
+ used in the purchase of the holdings of
+ the Lorain Electric company in Lorain
+ and Cuyahoga counties. The com-
+ mission refused permission to is-
+ sue \$500,000 additional common stock
+ and \$250,000 in bonds on another ap-
+ plication for the acquisition of these
+ holdings.

A New German Note In Frye Case Expresses a Conciliatory Attitude And Admits America's Contentions

(Associated Press Telegram)
+ Washington, Sept. 23.—Germany's
+ latest note on the sinking of the
+ American sailing vessel William P.
+ Frye, published today by the state de-
+ partment discloses an important dip-
+ lomatic victory for the United States.

Germany accepts the proposal to
+ fix damages by commission and let
+ the Hague pass upon disputed treaty
+ rights involved. She also gives as-
+ surances that no more American
+ ships carrying conditional contraband
+ will be destroyed under any circum-
+ stances.

American ships carrying contra-
+ band, however, still may be destroyed.
+ What effect this can have in practical
+ operation is problematical, because
+ Germany and Great Britain in their
+ retaliation have made absolute con-
+ traband practically everything which
+ was conditional under the declaration
+ of London.

One thing seemed to officials certain
+ —German naval commanders now are
+ ordered to exercise the rights of visit
+ and search with respect to all Ameri-
+ can ships to determine what cargo the
+ vessels carry, thus making it prac-
+ tically sure that none will be attacked
+ without ample time for passengers
+ and crew to be transferred irrespec-
+ tive of the cargo.

Considered with reference to the
+ entire controversy between Germany
+ and the United States, the Frye case
+ now is regarded as an indication that
+ the Berlin foreign office is anxious to
+ avert a break with the Washington
+ government. This increased today the
+ interest in Germany's attitude toward
+ the negotiations over the Arabic.

As for absolute contraband, such as
+ arms and ammunition, Germany as-
+ sumes its right to "it must re-
+ serve itself the right to destroy ves-
+ sels carrying absolute contraband,
+ wherever such destruction is permis-
+ sible according to the provisions of
+ the declaration of London."

The German note is regarded by
+ officials as evidencing a more friendly
+ spirit of the German foreign office.
+ Following months of strained rela-
+ tions between the two countries it was
+ received as a very favorable develop-
+ ment.

It practically insures American
+ vessels against attack without warn-
+ ing, and even in the event that they
+ are carrying absolute contraband,
+ passengers and crew are bound ac-
+ cording to the declaration of London
+ to be removed before there is any de-
+ struction, which also can occur only
+ in the event of extreme necessity.

"With regard first to the ascer-
+ tainment of the damage to exports,
+ the German government believes
+ that it can dispense with the nomina-
+ tion of an umpire. In the cases of
+ the ascertainment of damages hith-
+ erto ascertained between the German
+ government and a neutral govern-
+ ment in similar cases, the experts
+ named by the two parties have always
+ reached an agreement as to the
+ amount of the damage without diffi-
+ culty; should it not be possible, how-
+ ever, to reach an agreement on some
+ point it could probably be settled by
+ diplomatic negotiation. Assuming
+ that the American government agrees
+ to this, the German government
+ names as its expert, Dr. Kerpner of
+ Bremen, director of the North German
+ Lloyd's, it begs to await the designa-
+ tion of the American expert. The
+ German government declares that it
+ agrees to the proposal of the Ameri-
+ can government to separate the ques-
+ tion of indemnity from the question
+ of interpretation of the Prussian-
+ American treaties of 1785, 1799 and
+ 1828. It therefore again expressly
+ states that in making payment it
+ does not acknowledge the violation of
+ the treaty as contended by the Ameri-
+ can side, but it will admit that the
+ settlement of the question of indem-
+ nity does not prejudice the arrange-
+ ment of the differences of opinion con-
+ cerning the interpretation through
+ the treaty rights, and that this dis-
+ pute is left to be decided by the
+ Hague tribunal of arbitration.

The negotiations relative to the
+ signing of the compromise provided
+ by article fifty-two of The Hague
+ convention would be best conducted
+ between the foreign office and the
+ American embassy in Berlin in view of
+ the difficulties in the way of instruct-
+ ing the imperial ambassador at
+ Washington. In case the American
+ government agrees the foreign office

is prepared to submit to the embassy
+ a draft of such a compromise.

The American government's in-
+ quiry whether the German govern-
+ ment will govern its naval operations
+ in accordance with the German or
+ the American interpretation of the
+ treaty stipulations in proceedings, pend-
+ ing the arbitration question, has
+ been carefully considered by the Ger-
+ man government. From the stand-
+ point of law and equity, it is not pre-
+ vented, in its opinion, from proceed-
+ ing against American ships carrying
+ contraband, according to its inter-
+ pretation, until the question is settled
+ by arbitration.

"For the German government does
+ not need to depart from the appli-
+ cation of generally recognized rules
+ of the law of maritime war as a
+ declaration of London, unless and
+ insofar as an exception based on a
+ treaty, is established beyond all
+ doubt. In the case of the present
+ difference of opinion between the
+ German and the American govern-
+ ment such an exception could not be
+ taken to be established except on the
+ ground of arbitral award. More-
+ over, the advantages to Germany
+ which would ensue from the Ameri-
+ can interpretation of the treaty stipu-
+ lations would be so much greater
+ as to be out of proportion to those
+ which the German interpretation
+ would entail for the United States.
+ For, whereas the American interpre-
+ tation would materially impede Ger-
+ many in her conduct of warfare,
+ hardly any particular disadvantage
+ to any American citizens would re-
+ sult from the German interpretation
+ since they receive full reparation for
+ any property damage sustained.

"Nevertheless, the German govern-
+ ment in order to furnish to the
+ American government evidence of its
+ conciliatory attitude, has issued or-
+ ders to the German naval forces not
+ to destroy American merchantmen
+ which have loaded conditional con-
+ traband, even when the conditions
+ of international law are present, but
+ to permit them to continue their voy-
+ age unhindered if it is not possible
+ to take them into port. On the other
+ hand it must reserve to itself the
+ right to destroy vessels carrying ab-
+ solute contraband wherever destruc-
+ tion is possible.

Col. House was quoted by Dr.

+ prohibit exports of war munitions to
+ Europe.

Col. House yesterday gave out a

+ heavily reinforced while the fortifica-
+ tions at Lille, in France, have been
+ restored and strengthened.
+ It is reported here that these pre-

Mt. Vernon and Knox County Had Honor of Sending The Largest Pythian Delegation

Mt. Vernon and Knox county had
+ the honor yesterday of sending the
+ largest delegation of Pythians to
+ this city to participate in the cere-
+ monies attending the dedication of
+ the new Pythian Castle. While no
+ accurate count was made of any of
+ the delegations, the party from the
+ neighboring county numbered at
+ least a hundred more than that from
+ any other single county.

The membership of the Newark
+ lodges, Knights of Pythias also feels
+ highly honored by the fact that the
+ supreme officer of each of the Pythian
+ departments, was present which is
+ said to be the first time in the history
+ of the state that all were as-
+ sembled in the same town on a simi-
+ lar occasion.

Supreme Chancellor Brig. S.
+ Jones, head of all the K. of P.
+ lodges in the world and Major Gen-
+ eral W. H. Loomis, commanding of-
+ ficer of all the Uniform Rank bodies
+ in the world were present yester-
+ day. Mrs. Nellie Keller, supreme
+ representative of the Pythian Sis-
+ ters of Ohio, was present and

though the program did not provide
+ for an address by Mrs. Keeler,
+ Chairman Frank Place called upon
+ her as the representative of the Ohio
+ sisters. Her address was pronounced
+ splendid.

As far as can be learned no ac-
+ tual count of the number in the dele-
+ gation was made but estimates of 4,000
+ to 5,000 were made by those who have
+ been accustomed to estimate crowds.
+ The line of march was through
+ with citizens and visitors. West Main
+ street was a solid mass of parked
+ automobiles.

Following the parade, the drill
+ team of Coshocton lodge and the big
+ drum team of Bakoo temple, D.
+ O. K. K. gave an excellent fancy
+ drill in the street.

The Buckeye Band, resident in
+ their new uniforms, made the best
+ appearance of any of the bands in
+ the parade. The uniforms are regu-
+ lation military style.

KATYDID WAS OUTSIDE MONEY FOR FIRST TIME

(ASSOCIATED PRESS TELEGRAM)
Columbus, Sept. 23.—For the fourth program of the Columbus grand circuit meeting, there will be offered this afternoon the 2:10 class pace, the Capital City stake for 2:08 trotters, the free-for-all pace and the 2:19 class trot. A restoration of warm weather is desired, as the recent coolness has had a detrimental effect upon speed-making. Lee Axworthy, worthy Prince and Boulton are expected to start in the Capital City stake which has a value of \$3,000. Each of the other three races is for a purse of \$1,200. Some noted half-mile winners are to be in the 2:10 pace as Texas Jim, Tommy Direct, Kate McKinney and Roan Hal, are entered for it. Napoleon Direct and Yedno are among the free-for-all pacers named.

The \$5,000 Hartman Stake for 2:13 pacers, the most valuable of the pacing events to be raced at the two weeks' Grand Circuit meeting here, was the feature of a rather lengthy but tame card yesterday and was won by the bay gelding Hal Boy, driven by the Chicago teamster, Dick McMahon, who won the Review Futurity with Mary Putney. Although Hal Boy has raced every week since the season opened at Cleveland and has always been a contender in the stakes, this was his initial Grand Circuit victory of the season. Pacers featured the program, the sidwheel division of the Horse Review Futurity worth \$3,000, also being down for settlement, and this went to the champion colt General Todd, his third Futurity victory of the year.

The race for the Hartman Stake produced a loafing match through the first part of each of the three heats, with Hal Boy making each post a winning one. He was the choice in the auctions, bringing \$100 against \$60 for Judge Ormonde, \$20 for Acornite and \$15 for the field.

General Todd, who paced to the world's record for three-year-olds of 2:04 two weeks ago, was a \$50-to-\$20 choice over the field for the Futurity and he won a very easy victory. Miss Harris M was the only contender, Sad Thoughts breaking early in the first heat and being shut out.

Margaret Rruin, who has not lost a heat in any of her races this season, played with Joan and Star Winter in the special trot, not having to beat 2:06 1-4 to win, the race just being a nice workout for her. The 2:15 trot was divided, Parcliff, favorite for the first division, was unsteady and not a factor. Seneca Boy, a trotter from the far Northwest, won two heats and then tied, the Philadelphia stallion Roy Miller then winning. Fair Virginia, from the Cox stable, was the choice for the second division and she managed to win the first heat, but could not stall off the Indiana half-mile track star, Rose D. in the next three rounds. Katydid, a Newark horse, finished fourth in three heats and fifth in the last, being outside the money.

After the race for the Pacing Futurity yesterday, Stoughton Fletcher of Indianapolis, who paid \$12,000 for the Hartman Stake Winner Hal Boy a few weeks ago, purchased from Lon McDonald and Eugene Mettler the pacing filly Miss Harris M, winner of second money in the race. The price paid is reported at \$7,000. The filly has a record of 2:07 1-4 and she will be pointed for the 1916 Grand Circuit Pacing Stakes.

POISONS RACERS TO SAVE MONEY SAYS MRS. CLARK

Lorain, O., Sept. 23.—Mrs. Margaret Clark, 60, wife of Henry Clark, a Cleveland horseman told Judge William B. Thompson, in the commonwealth court that she poisoned her husband's two race horses because the racing game had taken about all their property and that she desired to put her husband out of it before the remainder of their fortune was consumed.

"Ten years ago my husband and I had property valued at \$50,000, and today it is not worth one-twentieth of that amount," said Mrs. Clark.

"My husband became interested in race horses and spent all our money in an effort to develop a winner, which did not materialize. Two weeks ago I became desperate and decided to end the racing business. I poisoned two racing mares, to which the stable had dwindled, while they were quartered at the Elyria fair grounds."

Mrs. Clark's plea had the desired effect. Prosecuting Attorney Adams nolleed the two charges of poisoning against her, and she pleaded guilty of cruelty to animals and was fined \$25 and costs.

VEES STOCK COMPANY.
The Albert Vees stock company which comes to the Auditorium theater next Monday for a week's run, is, according to those who have seen it, one of the best balanced companies that has ever appeared in road stock. Mr. Vees, who will be remembered as the leading man with the Nancy Boyer company, has surrounded himself with players of ability and has secured a large number of legitimate successes in the larger cities, and for which he is paying the upper price in royalties. The company will appear each evening at the Auditorium next week, in a different play, the first being "The Only Son," and on Tuesday and Friday afternoons there will be given a matinee.

Hartman, Theatre, Columbus.
On Tuesday and Wednesday, September 28-29, with Wednesday matinee, the Hartman Theatre will offer Henry W. Savage's revival of "The Prince of Pilsen." Theatre-goers, of course, need not be told what sort of entertainment to expect for those who have not seen this comic opera have heard of it as the best comic opera of the last twenty years.

"Daddy Long-Legs," the famous comedy success which will be the attraction at the Hartman Theatre, Columbus, September 30-October 1-2nd, with matinee on Saturday, is a dramatic visualization of the appealing romance set forth in the famous "Daddy Long-Legs" letters which were published by The Ladies Home Journal three years ago and which have since, in book form, proved one of the most famous best sellers in the literary world. The theme of the play is the romance of a very quaint little Cinderella and a modern Prince Charming. The play has been described by the dramatic reviewers of the country as the daintiest love story told on the stage in recent years. It is at the same time a comedy that bubbles over with whimsical humor and is radiant with the joyousness of youth.

Findlay Mayor Prevents Bout Booked Tonight

Findlay, Sept. 23.—City officials yesterday issued an order preventing the boxing exhibition which was to have been held here tonight. Biz Mackey of Findlay was scheduled to fight Frankie Saunders of Elizabeth, N. J., and several preliminaries were planned.

The officials hold that inasmuch as no admission fee was to have been charged, the match would have been illegal. Acting Mayor Carothers said that Mackey had told him that it was to have been merely a "free" entertainment for his friends. But it was advertised as a regulation boxing match, with an admission fee.

DUTCH STEAMER SUNK BY MINE

(ASSOCIATED PRESS TELEGRAM)
London, Sept. 23.—The Dutch steamer Koningen Emma, of 9000 tons, which struck a mine as she was on her way to Amsterdam from Batavia, Java, capsized and sank in the Thames today. The 250 passengers had been previously taken off the Koningen Emma, which was being towed up the river when she sank.

WINTER'S SNOWS MAKE PERILOUS ARMIES' DUTIES

(ASSOCIATED PRESS TELEGRAM)
Lausanne, Switzerland, September 20.—(Via Paris, Sept. 23).—Winter snows are already falling in the Alps, rendering still more perilous the work of the Italian and Austrian troops who are engaged in warfare in the mountainous region near the border.

A correspondent of the Gazette de Lausanne, describes the recent battle for possession of the Austrian stronghold on top of Preilkofel mountain, 9000 feet high. The attack was made under most difficult conditions. The Austrians had prepared for an attack from the east. Two battalions of Italian Alpine troops made their way around the mountain and attacked the Austrians from the rear. To reach the summit they were compelled to scale the precipitous side of the mountain, clinging to ropes placed in position by mountaineers.

The correspondent states that the Italians captured 250 Austrians and a large quantity of munitions.

NEW BOSTON PARK USED BY THE SOX FOR WORLD SERIES

Boston, Sept. 23.—Braves' Field, the largest baseball ground in the country, will stage one end of the world series games next month, unless the Red Sox are displaced from leadership in the American league.

President Joseph J. Lannin of the club yesterday announced that he had accepted the offer of President Gaffney of the Boston Nationals extending the use of Braves' Field for all of the home games of the Red Sox in the series. Last year the Braves occupied Fenway Park in the games which won them a world championship, the payment covering only the actual expenses, and it is understood that a similar financial arrangement will govern the use of Braves' Field by the Red Sox.

For the big series the field probably will be equipped to seat more than 50,000 persons. Such an attendance would break all records of the game in this country. The present stand holds 42,500, and it is proposed to erect a temporary stand in right centered seating about 10,000 more.

STAR
CHEWING TOBACCO
LEADING BRAND OF THE WORLD

"What would you rather do, or go a'fishin', Tom?"

"Chew STAR and watch this game."

FIFTY years a national favorite. That's STAR. A mile-long factory turning out so many STAR plugs each year that, if placed end to end, they would stretch from New York to Europe and back. That's how much chewers like STAR.

Better or higher-priced "chewing" leaf than that used in STAR cannot be bought. A thin plug costs you as much as a 3/4-inch thick STAR plug. In STAR you get the extra quantity that only its thick plug can give, and a taste delight that only STAR plug contains.

Men Who Chew Are Men Who DO

They find they can do better work when they take their tobacco in chewing form, and most chewers chew STAR.

16 oz. Plugs 10c Cuts

Lygett & Myers Tobacco Co.

STAR was awarded the Grand Prize at the San Francisco Exposition, and is the only chewing tobacco that has ever received this highest possible award.

As the autumn season comes on, the people settle down to the serious work of the winter attending moving picture shows.

Colored shoes are to be worn this fall by a large number of persons who don't intend to have their feet escape inspection.

Many farmers are responding to the demand for clean milk by taking pains to protect their water supplies from contamination.

Short sleeves are an attractive style for women, provided there is a corresponding increase in consumption of soap.

Thirty or forty careless people are killed monthly by automobiles in New York, where pedestrians should stay on the sidewalks or climb telegraph poles.

Formerly when a horse saw an automobile he bolted, and now horses will soon be so scarce that an automobile will shy out when it sees one.

It is urged that people who rob fruit orchards systematically should at least leave enough so that the owner can have some seed to plant for future years.

The October bride goes to the altar deeply concerned about the decorations and the dresses, and incidentally making a few bows for the rest of her lifetime.

After complaining that his wife can't keep anything in order around the house, many men sit down to begin to gnaw off lead pencils with ragged edge pocket knives.

The fact that a girl is very active passing wafers at a five o'clock tea does not prove that she will take hold and wash the dishes when she goes camping off in the woods.

An exchange asks what has become of the farmer who used to get up at four a. m. to work in the corn-field? Well he probably doesn't get up much before seven now, as that is early enough to go motoring.

Children's Reading.

The modern school teacher hands out an arithmetic in one hand and a standard novel in the other. Teachers conventions have much to say about inculcating a taste for good reading. A ninth grade boy who was visiting here the other day said that in his school they had to read "Oliver Twist" in a week. Then they had to write a composition about it. In many schools books like Cooper's novels are substituted for the old time reading books.

In many ways this works well. Children become familiar with the printed page. They read easily and get in the habit of using newspapers and books regularly. In this they acquire a superiority to many of their elders.

There are a great many people doing excellent work in the world who never look into a book. They buy magazines that advertise "Read."

ing." Books look too formidable. This works against mental alertness and breath of intelligence. The schools are doing their best to avoid turning out this type of mind.

In some cases this emphasis leads children to read too much. Many boys spend most of their spare time over story papers. They are absorbed in the improbable adventures of impossible heroes, becoming little dreamers. Instead of doing things themselves, they give attention to how their favorite characters did things. This makes them mere spectators in the game of childhood. It is a passive life, and not merely dulls initiative, but may impair health and eyesight.

Here is a great problem for the teacher. The bookish boy needs to be drawn in the direction of sport and handwork. The boy of non-intellectual tastes needs to become intimately familiar with the printed page. The ideal school is the one where this distinction is recognized and the tasks are fitted to the individual pupil.

Tree Planting.

The spring is the favorite time for planting trees. People are then looking forward to the beauty of summer and thinking of improving their home places. But the work of improving the town ought to be kept up in both seasons.

It is a problem nowadays to get trees that will offer firm resistance to insect pests. In the early days of this country, elms were a special favorite. The old time villagers used to go out in gangs and plant them along their streets. Thousands of old time towns are today shaded with wonderful rows of ancient elms, whose interlacing branches form a lovely gothic arch.

The wide sweeping curve of elm foliage has unique beauty. In elm shaded regions, wealthy men buy up trees located miles from their homes, merely to preserve the beauty of the view.

Comparatively few elms are planted now. They are too sensitive to insect pests. In the early days the abundant stock of birds held down the ravages of our foliage. But nowadays there are large classes of people who think that birds are chiefly valuable for pot pie. This depletes the food supplies, drives away the songsters, and removes protection from tree foliage.

Probably the whole country over, no tree is more popular than the maple with its thick mass of shade. All who ever visited the city of Paris know the possible beauty of horse chestnuts, particularly in their blooming time. The Lombardy poplar, whose tall plumes line the highways for so many thousands of miles in Europe, are increasingly a favorite here. As quick growers they are wonderful to fill bare spots, though their interlacing roots work havoc. These are only a few of the many varieties, the freer planting of which would not merely make real estate more valuable, but add to the charm of our town.

Robbery By Prize Court.

(New York World.)

It has taken the British Prize Court ten months to pass upon the case of four ships carrying American cargoes of provisions to Denmark which were seized last November. This in itself is an outrage, for every question involved could have been determined as easily in ten days as in the longer period. By ordering the confiscation of goods on the ground that, although consigned to a neutral port, they were presumably destined to the armed forces of Germany, a wrong second only to that involved in lawless submarine warfare has been committed. There is no pretense that the Court's judgment rests upon evi-

dence. It is supported only by assumption. The ships were neutral. The cargoes were neutral. They were proceeding from one neutral country to another. No question of contraband was involved, unless it could be made to appear that the provisions and other articles were not in fact for Denmark, but were to be immediately transhipped to Germany for the actual use of the army. As there was no proof that the consignment to Denmark was fraudulent or that it was going to Germany it would reach the army, resort was had to inference and imagination. The learned Court held that the goods must have had a German military destination, because no shipments in such quantities had ever been made to Denmark in time of peace.

It must be noted that where these ships were seized there was not a legitimate pretense that their cargoes were contraband. The British Orders in Council, which are now operative, had not been issued. The German Government had not commandeered the food supply of the Empire. The submarine campaign against British and neutral commerce had not been inaugurated. With some uncertainty and irregularity, Great Britain was revising its contraband list almost daily, but it had not touched the subject of civilian food. It now appropriates as lawful prize American property which at the time it was seized, whatever its status might have been later, was clearly exempt. Making use of delay to the utmost, it rests its judgment at last not upon conditions existing when it asserted jurisdiction, but upon conjecture, like that which led the commander of a U. boat to sink a great liner which he thought was trying to ram him.

The British Prize Court, therefore, does what it can in its own sphere to justify the impulses that rule the conning towers of German submarines. Suspicion is enough to excuse robbery in Great Britain, as thus far it has been to glorify assassination in Germany.

Is there no neutral right to life, property, trade or travel that any belligerent is bound to respect?

Who Pays?

(Philadelphia Record.)

By heavily taxing all imports that masses use in the way of shelter, clothing, foods, tools or for other needs, so as to prohibit outside supply, the monopolies engaged in manufacturing or handling such goods can house, and clothe, and feed, and equip for handwork the whole population of the country at prices measured by their own greed. This is "protection."

This is behind the cry for "subsidies," "big army and navy," and the promise of "a full dinner pail," "prosperity," "peace and plenty." But where does the money come from to pay for the show? The farmers must dig it out of the ground; the workmen of the country must struggle as they can against the push of higher prices from year to year; all classes except the protected classes feel the clutch of costlier living, and bear the brunt of heavier Federal expenditure as best they can.

The time has arrived when the mass of the people can no longer be fooled with the "protective" delusion that prosperity can be achieved by means of higher tax rates and heavier national expenditure. They are finding out that reaping the harvest of indirect taxation. Still better, they are discovering who pays the bills.

Spirit of the Press

The Waste in Highways.
This country wastes vast areas of arable land in roadways. The used part of a road is seldom more than 18 or 20 feet wide. The rest of the four rods commonly included is waste. It is a nursery of weeds, a harbor for vermin. It were much better to make the road of a reasonable width and devote the rest of the space to crops.—Portland Oregonian.

Getting Down to Facts.
For the first time in eleven years a member of the Rockefeller family is in Colorado to inspect its vast holdings in that state. The member is John D. Rockefeller Jr., and he is reported to be finding a closer acquaintance with the properties and the condition of the workers vastly interesting.

That the distant owners of these great enterprises apparently took so little trouble to familiarize themselves personally with the state of affairs that have been launched at them. And the criticism had a measure of justice. Absentee ownership can seldom discharge the full obligations of ownership, where the human elements are so vitally concerned, unless the owners get in personal touch from time to time with the other human factors.

Young Mr. Rockefeller's visit, made in compliance with a promise made to "Mother Jones" during a memorable interview, suggests that henceforth he intends to take a more personal interest in the conduct of his family properties and to provide himself with fresher and more personal information. The step is wise.—Chicago Herald.

Enforcing Peace.

In a recent statement, Ex-President Taft, president of the "League to Enforce Peace," says that "efficient preparation for adequate national defense is in no way inconsistent with the purposes of the league, but on the contrary, is essential thereto."

While the peace party is opposed to war, it is not opposed to preparations for all possible contingencies. The real object of the party is to banish war through arbitral means. It holds that war is so fiendish that it ought to be driven out of our civilization, and it cannot be driven out by killing men and burning cities. The peace proposition suggests an organized conference for the purpose of agreeing without fighting.

It is mighty poor thinking that says this cannot be done. One has a mighty poor opinion of humanity who thinks it would choose a fight before a conference. The league insists upon the civilized way—that's all; both for this war and for all wars. Get together and see if the difference is greater than that between tweedle-dum and tweedle-dee, and it is, find out a common ground and talk it over. There never was a fighting difference that did not turn out microscopic when closely observed.

One of the biggest humbugs that ever got into this world is war, and when it is all settled the cause of it seems ridiculous, as it was in the case of the war of 1812—the difference that the two nations fought over was not referred to in the treaty of peace.—Ohio State Journal.

Should Serve Public.

Isn't it about time the railroads stopped drastic economies? For a while the deficiency in their gross earnings extenuated, if it did not wholly justify, the slashing of their expenses. But as their net revenues were one-third of their gross in July, they might reasonably allow a little more money to get away from them in wages and the purchase of materials. The stockholders haven't been called on yet to suffer much, and the employees and the material men have an equitable claim to liberal consideration now that earnings have substantially improved. Besides, it may be very nice to have net earnings one-third of the gross, but it is not absolutely necessary.—Philadelphia Record.

THE FAILURE.

One fellow fails in life's great busy game, because his rags hang shapeliness on his frame; his trousers bag around his spavined knees, his whiskers

shelter hummingbirds, and bees. His hair, unshingled, forms an ugly wreath, his shoes are brown, he doesn't clean his teeth; he always looks as though he'd been asleep in some straw stack or ancient rubbish heap. To get a job he ambles down the earth, explaining that he's long on sterling worth.

"Give me a chance," all eagerly he pleads, "Judge not my rags, but judge me by my deeds. I'll cut more wood, and keep more bucksaws warm, than any dude who is the mould of form. But people judge by how a man appears; they view the whiskers that conceal his ears, the tangled hair that forms a measly rug, the shirt-front stained with juice of navy plug, the coat that needs a soaking in the brook, the trousersloons that like twin corkscrews look, and they exclaim: 'Get hence! Skeddaddle! Skedd! We have no place for such a bo as you!'" True worth may dwell in careless, slouchy chaps, but they must carry heavy handicaps.

A man can have a lot of confidence in his wife about other things. But he is always afraid that she is going to forget to put his handkerchiefs in the laundry.

You always console yourself with the reflection that if you were rich you could do a lot of things to make others happy. But you do not have to be rich to bring happiness into the lives of others. Every time you put a little tad on the head, or smile to a baby in the arms of a tired mother, or buy a bite for a poor cuss who used to have money, or slip a dime to a cripple, or tell a consumptive that he is looking fine, or kiss your wife, you are dispensing about nine billion dollars' worth of happiness.

Miss Florence Stone "Ruth"; Miss Besuden Close Second In the Alhambra Contest

Director and Expert Camera Man Here Ready to Take Local Photoplay, "The Man Haters"—Total of Almost 50,000 Votes Cast in "Who Will Be Ruth" Contest.

Miss Florence Stone, 338 West Church street, a popular clerk in the John J. Carroll store, will play the leading role in the Alhambra's picture play, "The Man Haters"—Total of almost 50,000 votes cast in "Who Will Be Ruth" contest.

Exactly 30,309 coupons were voted at the Alhambra last night. Mr. Sieb-anoller, assisted by Mrs. Sieb-anoller, worked until 2 o'clock this morning.

counting the vote. In order that the count should be correctly made Mr. Sieb-anoller insisted upon seeing and counting every coupon personally. At the close of the count Mr. Sieb-anoller posted a bulletin giving the result which showed a total of 10,405 for Miss Besuden and 10,382 for Miss Stone and this fact led to the report early Thursday that Miss Besuden had won by 23 votes. Announcement had been made however that votes mailed last night would figure in the contest and the mail brought in 2,980 votes as follows: Miss Stone 456, Miss Besuden 199, Miss Hayes 2178, Miss Frost 101, Miss Wooley 46. This changed the grand totals giving Miss Stone first place by 134 votes.

All of the votes by mail that were counted were postmarked Sept. 22. The eleven young women who

stood highest in the contest and who will be in the photoplay are:

Miss Florence Stone	10,738
Miss Annette Besuden	10,604
Miss Marguerite Hayes	7,836
Miss Myrtle Duerr	4,972
Miss Grace Nolan	3,283
Miss Tillie Jennings	3,133
Miss Blanche Trost	2,945
Miss Declina Wooley	1,903
Miss Hazel Athey	1,285
Miss Dora Siegel	943
Miss Agnes Donovan	814

Fred L. Bennage, director and Arnold Ricardo, camera man of the McHenry Film Company are here to take the picture which will require several days as the young women are to be drilled and rehearsed carefully before each scene is taken.

Mr. Bennage says that the parts taken by Miss Stone and Miss Besuden are of almost equal importance and the other nine young women together with five young men are to figure prominently in the picture.

The title of the Alhambra picture play is "The Man Haters" written by Mr. Bennage who is here to direct the production. Arrangements are being made for the use of three prominent homes, a public building and two stores. Three automobiles will figure in the picture and one scene is to be on the water at Buckeye Lake.

Interest in the voting contest continued up to the last minute. Coupons were carried to the Alhambra by the basket full by friends of the contestants. Mr. Sieb-anoller has preserved every coupon and will arrange to display the entire number.

The Advocate press was kept busy until eight o'clock last night in order to supply the demand for papers. Every person who applied for papers was accommodated and the office was kept open until 8:30 o'clock for that purpose.

In the contest which ended last night exactly 49,294 coupons were voted.

The first meeting of the Alhambra "Ruth" company was held at noon today, all but two of the young women (Miss Siegel and Miss Donovan) being present. Mr. Bennage explained the play in detail and gave preliminary instructions. The young women will meet at the Alhambra at 8:30 tomorrow morning when the first rehearsal will take place. The young women who met at noon today, Misses Stone, Besuden, Hayes, Duerr, Nolan, Jennings, Trost, Wooley and Athey were enthusiastic in their interest and Mr. Bennage is delighted with the "company" that is to produce the Newark play.

FALL—HAMMOND.

Much interest will be manifested here in the announcement of the marriage of Miss Marion Newell Hammond, and Mr. Lionel Fall, which took place on September 11 at Malden, Mass.

The bride is the only daughter of Mr. and Mrs. Herbert Hood Hammond of that city, formerly of Newark, and Mrs. Hammon was formerly Miss Cora Coffman, daughter of the late Allen B. Coffman of this city.

The ceremony took place in the Methodist Episcopal church, which was adorned in green and white. The bride was attended by her maid of honor and five bridesmaids. She wore a gown of pussy willow tulle with trimmings of chintilly and orange blossoms, the skirt made with the fashionable brevity as to length, scalloped corded and caught with the orange blossoms. The conventional court train was used and the tulle veil was caught with orange blossoms. She carried a bouquet of valley lilies and orchids. The maid of honor was attired in pink tulle with trimmings of silver brocade net and rose velvet. The bridesmaids were attractive in shimmering rose tulle with tulle trimmings caught at the shoulder with pink rosebuds.

A reception at the bride's home followed the ceremony, the color scheme being pink and yellow.

HORTICULTURAL EXHIBIT AT THE LICKING CO. FAIR

In addition to the general exhibit of the Ohio Agricultural Experiment Station, which will be installed at the Licking County Fair, a special exhibit from the horticultural department of the Station has been secured and will be shown separately. This special horticultural feature is not granted regularly at county fairs. It could be secured for Licking County only through a resident member of the Station staff of employees and because of the fact that it illustrates a number of points of orchard work in southeastern Ohio particularly applicable to Licking County conditions.

The Experiment Station's activity in orchard rejuvenation work in the once noted apple growing district of our state but where, in more recent years, apple culture had become almost a lost industry, has developed results not only marvelous from the horticultural viewpoint, but remarkable and helpful as well from the standpoint of the farmer who would improve his pasture and other grass land. As an illustration it may be stated that annual plowing and cultivation of orchards in the hilly portions of Ohio is a method not only impractical, but absolutely disastrous to follow because of the consequent rapid washing away of the soil and fertility from the hillsides already thin and impoverished from a long period of persistent and taking off of crops of grain and forage.

Experiments in retaining the steep orchard areas in grass (the thicker and heavier the better) and the use of straw or other forms of vegetable matter for mulching the ground about the trees, soon demonstrated that the now so-called grass-mulch method is not only sensible but efficient in a high degree. The great problem, however, in the hilly sections, was where to obtain straw in sufficient quantity for mulching, and the high price and difficult transportation as well. Experiments in the use of commercial, chemical forms of plant food in the starving and semi-starving orchards were begun and developed the valuable fact that not only is fruit production wonderfully increased but that the natural vegetation covering the orchard areas can by the same treatment be so greatly increased that the question of where to get the material for mulching is a matter of simple and comparatively inexpensive solution. These results led to further experiments in the use of separate and combined elements of chemical plant food on the same plots year after year, without the use of plow, disk, harrow or cultivator, and without sowing of grass seed of any kind. The effects are simply marvelous: Where only a thin, mixed, wild growth of weeds and poverty grass formerly existed on the steep, impoverished orchard land, producing from 200 to 800 pounds per acre per year of dry vegetable matter, the use of chemical fertilizers alone promptly encouraged the growth of the better and more valuable grasses which produce from 2000 to 3500 pounds per acre per year, to be cut and permitted to lie on the ground as a mulch.

These are valuable lessons for the farmer as well as the fruit grower, and the work is clearly illustrated in the special horticultural exhibit to be seen at the Licking county fair. Actual, average one-fourth acre of "tree-square" products of vegetation from fertilized and unfertilized orchard plots, grown in southern Ohio orchards, will be shown in the exhibit. A resident attaché of the Experiment Station, who has charge of orchard experiments in southeastern Ohio will be continually with the exhibit and explain the work in detail to all who may be sufficiently interested to investigate.

Licking county presents to the public each year one of the few surviving county fairs of Ohio. A fair which combines all the good features of other days and the results of human progress in more recent years and to date. Remember the dates. Sept. 28, 29, 30 and Oct. 1.

Letters sent by people unable to be present will be read at the dinner hour.

MAY PROVE FATAL

When Will Newark People Learn the Importance of It?

Backache is only a simple thing at first.

But if you find 'tis from the kidneys; That serious kidney troubles may follow.

That dropsy or Bright's Disease may be the fatal end.

You will be glad to know the following experience.

"This a statement of a Newark citizen."

Mrs. Helen A. Dennis, 50 German street, Newark, says: "I suffered dreadfully from pains across my back and I had rheumatic twinges in my limbs. My feet and hands became swollen. I had dizzy spells and it was hard for me to keep on my feet. The kidney secretions were unnatural. Several doctors gave me medicine, but I wasn't helped. Finally I used Doan's Kidney Pills and two boxes permanently cured me. I am now in good health; my back is stronger and my kidneys are normal."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Dennis had. Foster-McLarn Co., Props., Buffalo, N. Y.

MOTHER LOCKED HER CHILDREN IN HOUSE;
THREE SUFFOCATED.

(Associated Press Telegram)
Dayton, O., Sept. 23.—Three children, 7, 4 and 1 year old, of Mr. and Mrs. Joseph Szenczok, Hungarians, living in North Dayton, were the victims of suffocation this morning, when the house in which their mother locked them, caught fire.

The police say, through the children playing with matches. A fourth child escaped death.

The mother had been out on a neighboring dump gathering junk when the fire started. The father is a laborer.

PICTURES WORTH HAVING

Everyone Can Enjoy the Rotogravure Section of the Sunday Gazette Times.

The newest and finest thing in newspaper illustrating is the Rotogravure Picture Section of the Sunday Gazette Times. This section was added to the big Pittsburgh newspaper only on August 29, but the several numbers that have been issued have been most satisfying pictorial efforts. Each number has been better than its predecessor.

There are four full-size pages of excellent new pictures. They are human interest pictures and beautiful. The rotogravure process enables perfect reproductions of photographs in soft dyes.

The result is real art. Everyone interested in people and events should have these pictures very week. They contribute to one's education; they develop one's appreciation of art; they are a treat to lovers of the beautiful.

The rotogravure process is very expensive, but the Pittsburgh Gazette Times has not increased the price of that great Sunday paper; its readers are gainers by the publishers' enterprise in adding this wonderfully beautiful picture section to what was already a most complete newspaper. It is pleasant to learn that the innovation is appreciated. The sale of the Pittsburgh Sunday Gazette Times is increasing by leaps and bounds and orders for that paper must be given early to insure a but regular patrons getting it. The Sunday Gazette Times with its Rotogravure Picture Section and all the other good things it contains—and you never find anything objectionable in it—ought to be in every home every week.

When You Wash Your Hair Don't Use Soap

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulled coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

BABLINGS

By Harlan E. Babcock

NATURALLY, ALSO AND WHY NOT?

I LOVE the snow, the pretty snow,
That flutters down from heaven;
I love the fireplace close to hug
From eight till close to eleven;
I love to hear the blizzards bliz,
And Boreas blasts to battle,
I love to hear the Storm King howl,
And hear his old teeth rattle.

I love to see Doc. Fahrenheit
Shove down the mark to zero,
And clean the walk of cluttered flakes—
Be dubbed a household hero;
I love to see the drifts piles high—
Six feet or so in places—
And at Jack Frost I love to make
Insulting, wry, sour faces.

I love to shiver and to shake
On each cold wintry morning,
And hear the water pipes go snap
Without a hint of warning;
I love to pluck from the eaves
Long, lumpy, lean icicles;
To chew 'em up in ghoulie glee,
Like Aunt Jemima's pickles.

I love the dear, sweet winter days
When everybody's frozen
And taking dope for this and that
And it and also those'n;
I love it when it freezes one
Till he gets numb or number,
But here's the point, I only love
These things when it is summer.

Our Strictly Better Fifty Per Cent,

offspring, Young Billy Bab, is sojourning
with friends and relatives in a certain
bucolic section of the Hoosier state,
wires us at our expense that she will
celebrate with us the fourteenth anniversary
of our nuptial matrimony, which transpires
on Sept. 11, 1915.

Now comes down the sign in our den
reading, "My Wife's in the Country,
Hooray, hooray," and up goes the one
inscribed, "Welcome Home, Dear Heart."

We're glad that you came to our beautiful
city
With the Chi-Com-de-Goodrich Association,
And trust that though it was more or
less flitty,
You fully enjoyed your out-of-door
recreation.

Your drive in Doc's racer, your eats at
the club,
Your game on the golf links (tho' perhaps
you're a dub);
We trust that these functions bro't joy
to your soul;
That you never missed a bogey on the 19th
hole.

To judge from the style of the boost that
you wrote,
We think "young" Doc. D. must have
piffled your goat;
All to the classy, gilt-edged as to reading—
A boost for our city, all join in commending.
We're glad you are with us; we all love
your balads;

We hope you'll come oft for a wun on the
lake,

We'll serve, to atone for single risk (?)
you may take.

"Bud," we accept the nomination,
the only provision being that before
we shuck any toadskins into a general
campaign fund you will send us
your generous sample of that
"galactophagus chick salad." We'll
try anything once.

The happiest time in some men's
lives is when their wives are widows.

PROBABLY ALSO CHEWED.

The Lady Macbeths met at their
hall Wednesday afternoon and sewed
rags for a sister member.

Being either good or bad all the
time must be an awful dull job.

Many a man pays off a grudge who
isn't dunned for it.

Even a wide-awake man may have
a nap on his clothes.

When a woman who hasn't seen her
husband for six weeks gives him upon
his return home a lingering kiss, a bear
hug and a sunburst smile of joy, and
shortly thereafter begins to scold him
about some trifling thing, and then
another, and he gets sore, just make up
your mind that she loves him and that
there at least is one happy home. It's
a loving wife's prerogative, and then
the brutes deserve it on general principles,
anyway.

At a funeral in a Maine town the
crowd rushed the sarcophagus so hard
that they upset it. Being a dry town
they evidently were after the beer.

She called it "the perfect right of a
wife to gently correct my husband's
imperfect conduct." He called it "Get-
ting the d— nagged out of me by my
wife." Both were right.

Readers' View Point

Editor of The Advocate:—Owing to the wide publicity given by the press to the recent action of the Official Board of Euclid Avenue Methodist Episcopal church, Zanesville, Ohio, we, as a Committee appointed at a meeting of the Officials of Chatham charge wish to state the facts concerning this matter as we know them.

The Official Board of Euclid Avenue Methodist Episcopal church, Zanesville, Ohio, assumed the authority to reject as pastor, one duly appointed by the regularly authorized appointing power of the said church.

This attack upon Brother Gillilan is unfair, unjust and brings to him and his family the greatest humiliation.

By a lack of knowledge as to age, physical ability for service, and general efficiency, the judgment assumed by the Board is a flagrant violation of all Christian sense of fairness and justice.

During his four years' pastorate at Chatham, we have learned Brother Gillilan as an honorable and upright citizen, standing four-square to the world; and as a pastor, to be ever loyal to God and his fellow men.

His untiring efforts as President of our Men's Club, which he organized during his pastorate here, have made possible a community uplift day for three successive years.

The splendid success of each of these days has been recognized as an inspiration throughout the county.

Last year, largely through the pastor's efforts, a fine lecture course was given. The pastor, rejected by this Official Board, was the one who led Chatham charge to contribute \$250.00 in cash, to the flood sufferers of their city.

Brother Gillilan, upon his own motion, and by the earnest solicitation from the Officials of all points of Chatham charge, which he has served for four years, has exchanged his own appointment to Sciotoville, Ohio, with the Rev. George H. Creamer who was sent to Chatham charge.

Where there are small children articles of wool are constantly in use and therefore require washing, and unless it is properly done they will be ruined. If this simple plan is followed success is sure.

Make a fairly hot suds with a good quality of white soap, immerse the piece, allow it to soak for half an hour, then swish and pat it around. Squeeze out as much moisture as possible and repeat the process. If it does not look perfectly clean, repeat the process.

Rinse it through clean, warm water until all traces of soap are gone, squeeze it, place it on a towel, twist the towel tight to get out more water, put a clean towel in a large saucer pan or a china bowl, place the article lightly upon it, put all in a warm oven and leave the door open. The washed piece should look almost like new.

Every Day Etiquette

"What is expected of a woman who is invited to an entertainment at the request of a friend, the hostess and the woman not being acquainted before the affair?" asked Jane.

"The stranger who received the invitation should call upon her hostess within two weeks after the date of the entertainment. If the hostess returns the stranger's duty call, she may understand that the hostess wishes to further the acquaintances," advised her aunt.

BE JOYOUS TO BE BEAUTIFUL

Innocent Mirth and Dance Advocate as Tonic. Miss Grace Gibson Posing as Merry Pipe.

We are told in our article of today, written for the Advocate's development series by Anna Louise Shafer, how we may transport ourselves into the scenes and atmosphere which Pan made joyous with his tuneful piping, and, following his example and that of his nymphs, dance ourselves into lightheartedness and health.

By Anna Louise Shafer. (Copyright, 1915, by J. Keeley.) "New forms may fold the speech, new lands arise within these ocean portals, But music waves eternal wands—Enchantress of the souls of mortals."

Though pagan "Pan is dead," and the mysteries and phenomena of Nature ascribed to their proper source—the Pan we really loved, the personification of lighthearted joy—that Pan we shall have with us so long as we are able to retain a love for merry play, dancing and innocent mirth, and are able to feel the mystery and the music and the heart-stirring beauty of Nature.

Pan's "pipes," like himself, were mythical, but his musical score was and is as real as: "The wind in the weeds and the rushes, The bees on the bells of thyme, The birds on the myrtle bushes, The cicale above in the lime."

If we can draw pleasure from such sources, and if we will fit our bodies to respond in movement as harmonious to the music of "Pan pipes," we shall be in the way of increased happiness and improved health. Lighthearted joy is a great natural tonic and a great beautifier.

The pose of Pan can be made a balancing exercise of great value. There is no apparent tension, yet it is a pose of perfect opposition—on that depends its grace and charm. Note how the head in our illustration sways toward the weight-bearing leg, torso in opposition. Just this little tilt of the head gives a "Panish" charm to the pose, and the preserving of the oppositions is what gives the "tension" to the diaphragm and the other muscles and the value of the exercise.

Lesson XIX. From basic sway weight to right leg, strong, with knee only slightly bent, hip leading, torso in opposition, head swaying slightly toward strong leg. So balanced, raise left leg through power in upper leg to position shown, then bend the foot and tense muscles, at the same time raising arms and hands to position for holding and playing pipes, as shown. Change weight and repeat with left leg.

FELS NAPTHA

works hard and makes your wash easy. You rest while it dissolves the grease and dirt in the clothes. Then a few rubs with the hands or on a wash-board, a good rinse and the clothes are ready for wringing—whiter, cleaner than if you toiled all day over the wash-tubs and wash-boiler.

Just as wonderful for all household cleaning.

Nothing Will Ever "Restore" Color to Hair. It Must Be Stained If the Color Is to Be Changed—Don't Be Deceived By Slow Acting Dyes Under the Guise of "Health-Restorer" and Such Misleading Names.

Some folks would have you believe that they have discovered some marvelous coloring preparation that will "restore" the color to gray, streaked or faded hair, without staining it. No such preparation has ever been discovered.

Such preparations are advertised in this deceiving way—but they all depend upon sulphur, lead, silver or other dangerous materials for gradually dyeing the hair.

There is only one preparation so far as we know that is entirely free from all of these highly dangerous and poisonous drugs. That preparation is called "Brownatone."

"Brownatone" is instantly tinted the hair to any shade of brown (or black) that may be desired, if the gray shows on your temples or is streaking your hair—if the ends of your hair are lighter than the balance of it for any reason you wish to stain all or part of your hair—try "Brownatone."

Gentlemen use it for beard or mustache. All this, without the possibility of detection, failure or harm to either hair or scalp.

No previous experience whatever is necessary when you use "Brownatone." Just brush or comb it into the hair.

A sample and a booklet will be sent you (from manufacturers only) upon receipt of 10c.

All of the leading drug stores sell "Brownatone" in two sizes, 25c and \$1.00. Two shades—one for golden and medium brown and the other for dark brown or black.

"Brownatone" at your hair-dresser's.

Prepared by The Kenton Pharmaceutical Co., 30 Pike St., Covington, Ky. Sold and guaranteed in Newark by R. F. Collins, Evans Drug Store and other leading dealers.

SILVER WEDDING SHIPLEY HOME AT CENTERBURG

Mr. and Mrs. M. M. Shipley celebrated their 25th wedding anniversary at their beautiful home 2 1/2 miles northwest of Centerburg, O., on Friday, September 17, 1915. The guests numbered 107.

The day was an ideal one for the occasion. At 12 o'clock the guests were invited to a new building which Mr. Shipley had recently erected and which was nicely decorated with boughs from the forest, where they were seated at two tables, one for the parents and one for the children, which were beautifully decorated with flowers. A splendid dinner was served.

After showering the bride and groom of twenty-five years with rice, the ladies gave them an old-fashioned serenading, a footing of horns and clattering of pans. One would have thought the bedlam had broken loose. But Mr. Shipley was equal to the occasion. He had prepared himself with candy and cigars which soon quieted the crowd. Mr. Tucker then arranged the guests on the lawn in front of the residence and took a photograph of all present.

Those present were: Mr. and Mrs. Clendon Williams and daughter, Mr. and Mrs. J. H. Day, Mr. Frank Day, Miss Helen Wolcott, Homer; Mr. and Mrs. S. C. Parsons, Mr. and Mrs. Edward Parsons, Mr. and Mrs. L. M. Shipley, Mrs. Mary Brown and daughter Susie, Mr. and Mrs. E. E. Shipley, Mr. and Mrs. Forest Hall and daughter Evelyn, Mr. and Mrs. Glenn Shipley, Mrs. Pickering, Mr. Park Shipley, Johnstown, O.; Mr. and Mrs. J. C. Shipley, Mr. and Mrs. William Shipley, Mr. and Mrs. J. M. Broughton and children, Ruth, Sarah, Charles and Martha, Granville, O.; Mrs. John Riley, Mr. and Mrs. Byra Parsons, Mr. and Mrs. Jesse Parsons and daughter, Utica, O.; Mr. and Mrs. John Shipley of New London, Iowa; Dr. and Mrs. W. V. Lucas and sons, Edward and Marritt, Mrs. Lottie Lucas, New Washington, O.; Mr. and Mrs. Charles Cooper, Mr. and Mrs. Lee Hunt, Mr. J. M. Huddleston, Mr. and Mrs. Elwood Montgomery, Mr. and Mrs. C. L. Riley, Mr. and Mrs. C. W. Coe, Mr. and Mrs. O. C. Bowman and children, Eva, Esther and John, Mrs. Ella Shipp, Mr. and Mrs. Thomas Sands and daughter Helen, Mr. and Mrs. John Fry and daughter, Ruby, Mr. and Mrs. Miles Rinehart and son, Mr. H. M. Tucker, Mr. S. C. Haines, Centerburg, O.; Mr. C. P. Hubbell, Mrs. Dena Castner, Mr. and Mrs. M. D. Williamson, Mr. and Mrs. Amos Montgomery, Mrs. Anna Trout, Mrs. Cliff Williamson, Rich Hill, O.; Mr. and Mrs. Williams Edman, Mrs. William Kerrigan and daughter Katherine, Mr. and Mrs. N. E. Irwin, Miss Letta Beene, Mr. and Mrs. Addison Weaver, Mr. and Mrs. R. Lock, Mr. and Mrs. S. E. Hall, St. Louisville, O.; Mrs. George Weaver, Mr. and Mrs. William Hulshizer, Newark, O.; Mr. James Day and son Scott, Mt. Vernon, O.; Mr. and Mrs. Albert Riley and daughters, Mabel and Marie, Vanatta.

Mr. and Mrs. Shipley were the recipients of many useful and valuable presents. Mr. and Mrs. Edman, Mr. and Mrs. Irwin, aluminum comb set; Mr. and Mrs. Locke, Mr. and Mrs. Hulshizer, Mr. John McKinney, table cloth and napkins; Mr. and Mrs. Sid Hall, silver; Mr. and Mrs. A. Weaver, condiment set; Dr. and Mrs. W. W. Lucas, silver butter knife, sugar spoon and cream dipper; Mrs. John Riley, silver cream dipper; Mr. and Mrs. Byra Parsons, silver spoons; Mr. and Mrs. Sumner Parsons, silver; Mr. and Mrs. C. S. Williamson, silver cream dipper; Mr. C. P. Hubbell and Dena Castner, silver soup ladle; Mr. and Mrs. Amos Montgomery, silver berry spoon; Mr. and Mrs. A. H. Wright, silver sugar spoon; Mr. and Mrs. A. P. Riley, silver meat fork; Mr. and Mrs. Hunt, Mr. and Mrs. C. L. Riley, Mr. and Mrs. E. Montgomery, Mr. and Mrs. Sands, one-half dozen silver knives and forks; Mr. and Mrs. Fry, silver cream dipper; Mrs. Trout, Mr. and Mrs. Park, one-half dozen soup spoons; Mr. and Mrs. Cooper, silver berry spoon; Mr. and Mrs. C. W. Coe, silver pepper and salt shakers; Mr. and Mrs. Williamson, silver meat fork; Mr. and Mrs. P. Marriott, napkin ring; Mr. and Mrs. Harry Shipley, mustard set; Mr. and Mrs. W. L. Day, Mr. and Mrs. Rorick, silver bread tray; James and Scott Day, berry spoon; Mr. and Mrs. E. A. Day, silver gravy ladle; Mr. and Mrs. Parsons, Mr. and Mrs. Shipley, Mr. and Mrs. Brown, Mr. and Mrs. Jesse Parsons, Mr. and Mrs. Louis Shipley, silver bread plate; Mr. and Mrs. John Day, silver; Mr. F. O. Day, silver; Mr. and Mrs. Hall, china dish;

After spending the balance of the day socially the guests departed for their respective homes wishing Mr. and Mrs. Shipley many more years of happy wedded life.

ABE MARTIN

ROOTS OUT CORNS BY PENETRATION

Dr. Hunt Finds the Quick, Clean, Painless, Effective Way. ONLY 10c.

Cutting a corn never cured it. Caustic liquids only invite blood poisoning, and stimulate further corn growth. Corn pads are bulky and squeeze the toes. Salves are greasy. But the one way that *does* cure corns of all kinds and sizes is the *penetration* way, discovered by Dr. Hunt, of Sidney, Ohio, a medical man who has spent a lifetime in the development of this new principle of curing corns by penetration.

Dr. Hunt's New Corn Cure comes in the form of clean, handy plaster. Six plasters in a box. Trim plaster size of corn and apply. Instantly the pain is eased. All you feel is the soothing effect. The plaster does not bulk up like clumsy pads.

Now see what happens: In two days the corn has become so thoroughly penetrated that it can be easily and quite painlessly lifted out, root, branch and all.

Remember, this principle is new. It is different from anything else offered as a permanent cure for stubborn corns. And a box full costs only ten cents. Money back if not delighted. Sold by druggists and shoe dealers everywhere. Or, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

Large box containing 20 plasters, 25c.

DUTY TO OTHERS POINTED OUT, AT N. SIDE REVIVAL

"No man liveth to himself and no man dieth to himself." The subject of personal responsibility through influence was the sermon subject at the North Side Church of Christ last evening. Regardless to the crowds and entertainments of the day there was a goodly number in attendance and a fine service was enjoyed.

The speaker showed that animate and inanimate objects in the world have influence—that mountains, lakes, seas and woods as well as animals of various kinds exert an influence upon the minds and occupations of men—that animals were worshiped in ancient times; and are yet by some peoples in some parts of the world.

Since mankind is so various in its ways and expression it influences more strength than anything else in the world.

People follow custom, habit, style, etc., and almost every individual's life is what it is because of influences from without and within that have come to it. Tennyson said: "I am a part of all that I have met." The strongest impulse in the world is that of the parent on the child. The boy wishing to be like his father; the girl like her mother. This fact is strategic for the parent. The parent may lead the child through example, to blessedness or wretchedness.

The sermon closed with a thrilling account of the tragic death of a young man who had learned to drink through the example of his father. The father controlled it personally; but the son became a hopeless inebriate and was finally crushed under the cars while stealing a ride. The father bitterly but rightly reproached himself for his son's death. Man is inevitably a part of society. He touches his fellow man in so many ways; and is, therefore, his brother's keeper.

A man or a woman should be a Christian for the sake of others as well as for their own good. Especially is this true of parents who should let their light shine for the sake of their children.

The Religious Quandary will be the subject tonight. Special music is being arranged. Reader this is your opportunity.

Municipal Bonds Safest of all Known Investments

The Security Municipal Bond Company offers carefully and conservatively selected Municipal Bond investments yielding profitable rates of interest on investments.

Municipal Bonds, that is, bonds issued by Cities, Counties, Boards of Education, Townships and other political subdivisions, are paid, both interest and principal, out of moneys raised by public taxation, and for their payment the faith, credit and resources of the public are pledged.

Being backed by the resources and taxing power of the public, Municipal Bonds are regarded by our most conservative financiers as the safest of all known investments.

Legally and properly issued Municipal Bonds are not only safe in every way, but they afford opportunities for exceedingly profitable returns on investments when the element of safety is considered.

The Security Municipal Bond Company carries at all times a large and varied stock of Municipal Bonds, and can supply its customers with gilt-edged securities to net them from five to six per cent on their investments.

The Security Municipal Bond Company, as heretofore announced, is composed of a syndicate of banks of Licking and Muskingum Counties, with large money resources dealing in Municipal Securities exclusively. It owns outright all of the bonds which it offers to its customers, and every issue of bonds is purchased first handed after the most careful and thorough examination of the security back of them.

Persons desiring safe and conservative investments, yielding profitable rates of interest should consult Mr. D. H. Pigg, who has entire management of the business of The Security Municipal Bond Company in Licking County. The company's offices are located in the Newark Trust Company Building, Room 703.

Mrs. William P. Miller and daughter Elizabeth, left this morning for Chicago where they will make their future home. Mr. Miller having taken the position of salesman of the Excelsior General Supplies Company of that city.

New Sermon Series.
Dr. L. C. Sparks, pastor of the First M. E. church has received many requests to preach a series of sermons on the subject of the "Doctrines of the Future State." He will begin the series next Sunday evening and will speak on the theme, "Does The Soul Sleep With The Body In The Grave Until The Second Coming of Christ?"

Handled Crowd Nicely.
The police department is receiving many compliments today on the splendid manner in which the big crowd, attending the Pythian ceremonies yesterday, was handled. Police Chief Sheridan and Captain Hager were both on duty with the patrolmen, well placed along the line of march, the throngs were handled so successfully that no accident marred the day's pleasures and the progress of the big parade was not interfered with.

Streets Were Clean.
The service department has the thanks of the general dedication committee as well as citizens generally, for the clean condition of the streets, particularly along the line of march yesterday. This was particularly appreciated by the marchers.

Cottage Prayer Meeting.
The Union Cottage Prayer meeting will be held at the home of J. F. Teeter, 578 Maple avenue, Friday evening at 7:30. Everybody invited. Take the North Fourth street car and get off at Norton.

Royal Neighbors Picnic.
The picnic of the Royal Neighbors will be held tomorrow at Mount-builders park providing the weather is favorable. If it is too cold or raining the picnic will be held in the Modern Woodmen hall in South Park Place.

Doubling Capacity.
David Fletcher of Youngstown was in the city today on business and stated that the mills and factories of

that city were being operated night and day. Work has been started by the Republican Iron and Steel Company on a new addition to its benzol plant which will increase its capacity 100 per cent. Seventy-five new by-product coke ovens will be finished within the next two months. Two stills are also being added. Bathing pools and shower baths for the employees are also being built.

Business Prospering.
The Jenks & Muir Manufacturing Co., of Findlay, O., is compelled to run its excelsior factory much extra time and is contemplating putting on an extra shift and running night and day. Large orders are coming from many cities and the company will be forced to employ additional men.

No Police Court.
No sessions of police court have been held for two days, no arrests having been made during that time.

Sixth Street Paving.
Work was started Thursday morning on the concrete curb and gutter for the Sixth street paving. The excavation for this work was done several days ago. The street will be paved with tarvia, a material used on this street for the first time.

Unusual Huckleberries.
Mr. Thomas Santee of Burt avenue, brought to the Advocate office today a branch of garden huckleberries, which were of unusual size.

Baseball Tournament.
Ty Cobb is expected to be in the lineup of the Shelby baseball team in a tournament to be held in that city on Thursday, Oct. 7, Bucyrus, Gallon, Crestline and Shelby participating. All of the clubs will be loaded down with stars.

Fair Well Patronized.
At the Wood county fair held last week at Bowling Green, O., 44,439 tickets were sold. The purses aggregated \$1,500 per day and one of the largest fields of horses in the history of the fair was at the track. Many of these horses have been entered for the Licking county fair next week.

From Cranberry Marsh.
The Advocate was presented with several twigs of cranberries picked from the marsh at Buckeye Lake. Years ago they were plentiful but now they only grow in patches. However there are plenty of cranberries on the market, most of which are shipped in from New Jersey.

Handy Arrangement.
Wireless plants have been installed in the two Jackson department stores at Findlay and Norwalk, O., the new apparatus making it very convenient, they now being able to communicate at all times.

Birth Announcement.
Born to Mr. and Mrs. John Adams of Spencer street, Wednesday evening, a nine and a half pound boy.

Buys Gibson Home.
The city of Tiffin has bought the old Gen. William H. Gibson home, located on the bank of the Sandusky river, at Monument Square. It was purchased in connection with a river improvement to be made by the city. An effort will be made to preserve the house, a handsome and substantial structure, and it is hoped that some means of preserving it will be found, for the historical interest associated with the home of one of Tiffin's most distinguished citizens.

Are Cutting Corn.
Much corn is being cut over Licking county. Commissioner Orville Kiger stated this morning that he had two men call at his home for employment and that he offered them nine cents per shock to cut his corn but they wanted eight cents and board. Many farmers are telephoning to the office of the Associated Charities asking that corn cutters be sent. The corn has ripened very slowly this year because of the long wet season and the cool weather.

Good Wells Drilled.
H. L. "Butch" McCoy, the well known gas well driller of North Fourth street came home from Butler to attend the K. P. dedication. Mr. McCoy states that they have brought in several good wells in the vicinity of Butler and will start spudding on a new location next week.

At the Races.
Dr. J. C. Lewis, M. J. Reese, Pat Flannigan, Smith Redman and J. C. Brown left in the Lewis car this morning to attend the grand circuit races at Columbus. The gentlemen expected to look them over in the stables before dinner and also watch them work out, then they would be in a better position to pick a few winners. Mr. Flannigan stated before leaving that he had a couple of winners for the afternoon program that were sure to go through and he had tipped them off to his friends.

Attention Old Guard.
The Company will assemble in the Armory, on Saturday the 25th, day of September, 1915, at 2.00 p. m. sharp, to take action in matter of arranging for attending the coming Licking County Fair, and other business of the Company. Every member of the Company is required to attend the meeting, unless regularly excused from duty. My order of Mathew Bausch, Captain Commanding Company B. Old Guard; J. W. Leidigh Adjutant.

Educated Men.
It is the worst of educated men that they cannot speak about any great question till they have read everything that has been written about it. For fear that some one should say, "But have you read Schwartzburg?" Then, if they have not read Schwartzburg, they are done.—Tolstoy.

A Chinese Proverb's Origin.
"He'll steal your shoes" is an expression which in China is used to describe an arrant knave and pilferer. The expression is hundreds of years old. A wealthy Chinaman, whose gorgeously embroidered shoes were the envy of the community, was, according to the legend, despoiled of his pride in the following manner: A rascal one day rushed up, gave the rich man a hearty blow on the back, and seizing the astonished gentleman's hat, pitched it upon a high wall. The next moment the fellow seemed to discover that it was not an old friend he was greeting so enthusiastically and apologized profusely.

"How shall I get my hat?" inquired the man with the beautiful shoes.
"Jump on my back, and you can reach it," replied the schemer.

The suggestion was carried out, but while the hatless man was reaching for his head covering the rascal slipped off the handsome shoes and made away, leaving the simple minded millionaire clutching the wall.

Old Tin.
The expensiveness of pure tin accounts for the care with which it is handled. It is astonishing how little tin can be made to cover thousands of cans. Yet tin would be still more expensive than it is had not the following process been invented for its recovery at very low cost: Great heaps of empty cans (preferably washed and dried by mechanical means) are piled up in an airtight room. Warm chlorine gas is forced into the room, where it reaches every nook and corner of the cans. The warm gas has a tendency to unite with tin and form tin chloride, a highly volatile liquid. The mixture of gases, consisting of air, free chlorine and the vapor of tin chloride, is passed through a condenser, where the tin chloride is separated from the other gases, and by a simple chemical process the absolutely pure tin is precipitated.—New York World.

A Hint For Photographers.
Carbonate of soda is an accelerator for the reducing agent. With most developers, when they are dissolved alone in water, the image will ultimately appear, but it will come very slowly. Add a strong solution of carbonate of soda to the reducing agent and water and the image will fairly leap at you. The reduction of the bromide of silver has been tremendously hastened, and it is also more thorough and complete, the negative having much greater density. This is the safe mission of a carbonate of soda in the developer. It is to speed things up and complete the action.—Outing.

Ravenous Eaters.
Gibbon tells of Soliman, a caliph in the eighth century, who died of acute indigestion in his camp near Chalkis, in Syria, just as he was about to lead an army of Arabs against Constantinople. He had emptied two baskets of eggs and figs, which he swallowed alternately, and the repast was finished with marrow and sugar. In a pilgrimage to Mecca the same caliph had eaten with impunity at a single meal seventy pomegranates, a kid, six fowls and a huge quantity of the grapes of Tayef.

Such a statement would defy belief were not others of a similar character well attested. Louis XVI. could hardly boast of an appetite as ravenous as Soliman's, but he would eat at a sitting four platefuls of different soups, a whole pheasant, a partridge, a plateful of salad, mutton hashed with garlic, two good sized slices of ham, a dish of pastry and finish this ample repast with fruit and sweetmeats.—London Saturday Review.

Fighting a Forest Fire.
The combat with fire in the woods is usually as tense and as exciting as a conflagration in a city. From the instant smoke is discerned ascending into the blue above there is action. Upon reaching the scene the racing squads of fighters begin work by undertaking the tasks as outlined by the system. First one group starts with the cutting tools and rakes, clearing up a streak of ground several feet wide in the pathway of the fire. The men with water bags follow, wetting down this strip. Then come the back fires, who start fires from this point back into the main conflagration. When the fires meet they extinguish for want of material to burn. When the atmospheric conditions materially assist the flames the work of back firing is best done at night or when the air is still.—L. R. Perry in Countryside Magazine

EDUCATIONAL WORK AT Y. M. C. A. BEING PLANNED FOR WINTER

The Newark Y. M. C. A. is planning its regular winter work along educational lines. The report for last year shows that 128 men were touched through this line of effort. This is only one of its many lines of activity. Plans are being made this winter for classes in Mechanical Drawing, Shop Mathematics, English and Civics for New Americans. These classes will start on Monday evening, Oct. 11th. Each class will meet twice a week.

The tuition fees for these courses will be: Mechanical Drawing, \$10.00 for 40 lessons; Shop Mathematics, \$4.00 for 20 lessons; English and Civics, \$1.00 per month. The Mechanical Drawing will be taught by B. C. Morris of Denison University. Mr. Morris was formerly Assistant Educational Director in the Dayton Y. M. C. A. and is especially well qualified to handle this branch of work.

The instruction will be individual in nature and can be adapted to both beginners and advanced students. The shop mathematics will deal with the problems of measurement that come up in actual shop work. The classes in English and Civics are designed to meet the needs of those who are learning the English language and wish to become American citizens. Those desiring further information concerning these classes should call the Y. M. C. A.

Granville

(Special to the Advocate.)
Granville, Sept. 23.—Delta Omicron, the national musical sorority of Denison Conservatory, has commenced what promises to be a most prosperous year, with an active enrollment of sixteen. Saturday evening, September 18, the entire chapter met at the home of Miss Dorothy Swartz in Elm street to initiate seven new girls: Laura Johnson, Bernice Jackson, Genevieve Cathcart, Florence Stacey, Helmh Benton Miller, Mary Vashiti Jones, and Nellie Fleming. After the initiation proper, the girls enjoyed light refreshments, then went in a body to inspect the new Delta Omicron room at the corner of Elm and Mulberry streets, where many enjoyable times are anticipated during the coming year not only for the girls in the chapter, but for their friends as well. Already this organization, under its old name of the Cliff club, has several successful musical ventures to its credit, and the future promises much in the way of musical accomplishment by these youthful priestesses of the great muse.

Many Granville automobiles were parked around the court house square in Newark yesterday afternoon for the Pythian parade. The Granville delegation, led by the Granville band, in brand new, becoming uniform of dark blue, proved most satisfactory to the patriotic spectators from the old town, and there were many complimentary comments on the appearance of our band.

Dr. C. J. Rose has been in Toledo since Monday looking after certain business affairs.

Mrs. J. S. Jones entertained the program committee of the Granville Women's Music club at Bryn Du yesterday forenoon.

President and Mrs. C. W. Chamberlain expect to go east for the jubilee celebration of Vassar college, October 10-13.

Dr. George Williams of Columbus is a Granville visitor today.

Rev. Otto Geison, who succeeds Rev. A. J. Hawk as pastor of the Methodist church, is moving his family here from New Lexington today, and will occupy the parsonage in East Broadway.

Prof. Karl Eschman, director of the Granville Conservatory, announces that the first of the Conservatory recitals will be given in Recital Hall next Wednesday evening, September 29, to which the public is cordially invited.

Mrs. C. L. Williams returned this morning from her summer's visit with relatives in New Jersey.

LAWMAKERS

On Their Trip to Chattanooga—
Will Witness National League
Game Saturday.

(Associated Press Telegram)
Cincinnati, Sept. 23.—The legislators and state officials and their wives who are attending the reunion of the Eighty-first general assembly of Ohio were treated to an innovation in the entertainment line when they started on a special train early today for Chattanooga, Tenn. over the Cincinnati Southern railway. The Cincinnati Southern is owned by the City of Cincinnati, and the trip was specially arranged to give the Ohio lawmakers an opportunity to inspect the road.

The train on which the trip is being made is a special vestibuled all-steel car train and is composed of two locomotives, eight sleepers and two dining cars.

The Ohioans will arrive in Chattanooga at 6 o'clock tonight. While in that city they will be the guests of the members of the Chattanooga chamber of commerce. Friday the visitors will go to the Chickamauga battlefields and to Lookout mountain.

They will return to Cincinnati Saturday, and in the afternoon will witness the baseball game between the Brooklyn and Cincinnati National league teams.

FRENCH REPORT ARTILLERY DUELS ARE CONTINUING

Paris, Sept. 23.—The violent artillery fighting which has characterized the operations in France for more than three weeks past was continued yesterday and last night at a number of places along the line according to an announcement given out this afternoon by the French war office. The engagements were particularly severe near Rocklin court, and to the north and south of the river Aisne.

PAN-AMERICAN UNIFORMITY OF POSTAL SERVICE

(Associated Press Telegram)
Washington, Sept. 23.—A two-cent letter rate and extension of the parcel post system to all countries on the American continent were discussed today at a meeting here of the United States section of the International High Commission on Uniformity of Laws. The entire commission consisting of representatives of this country and the South and Central American republics is to meet in Buenos Aires, probably early in November.

Today's meeting was held to determine some of the subjects of uniform legislation to be suggested by the representatives of the United States. Secretary McAdoo, John Bassett Moore, John H. Fahey, Senator Fletcher, Paul M. Warburg and Samuel Untermyer were present.

Licking county is ahead of every county in the state in the organization of farming interests. Has the larger and healthier granges. They will all show goods at the fair, in Newark, Sept. 28, 29, 30 and Oct. 1.

NEW TREATMENT BEING USED FOR TUBERCULOSIS

Mr. Charles Barnhart, a former patient in a tuberculosis sanatorium, where he failed to get relief, entered the Newark City Hospital Sunday where he is taking the surgical Pneumothorax treatment for the relief of his condition.

This treatment consists of a series of injections of nitrogen gas between the coverings of the lung which compresses the affected lung and causes it to dry up.

This treatment is extensively used throughout the west, but this is the first time it has been used in this city. Dr. Dillon is the attending surgeon.
